

GMC 2019 CALL FOR PAPERS

The GMC Planning Committee will accept papers for the conference based on an informative abstract submitted by the deadline. All abstracts will be evaluated on the information supplied. The review committee will use this information to help select papers, assign time slots and assign technical reviewers.

SHORT COURSES

The Short Course presentation is a 3-hour technical presentation. This presentation should be free of commercialism, and fall into one of the categories listed below. Authors are required to submit a final paper or a final PowerPoint presentation that will be published on the Gas Machinery Research Council's online library.

TECHNICAL PAPERS

The Technical Paper presentations are 45-minute lectures consisting of 35-40 minutes of lecture and 5-10 minutes of questions and answers. This presentation should be free of commercialism and fall into one of the categories listed below. Authors are required to submit a final paper that will be published on the Gas Machinery Research Council's online library.

TECHNOLOGY UPDATES

The Technology Updates are 10-minute commercial presentations that detail a new technology, product or service for 2018/2019. To present a technology update, the presenting companies must be members of Gas Machinery Research Council (GMRC). If you would like to present a technology update, but are unsure if your company is a member, or you would like to become a member, please contact Debbie at memberservices@gmrc.org or call 972-620-4012.
